

Consumers should stop using the Moses basket as a hand held infant carrier or infant sleep space, and repurpose it for other household uses, such as storage, laundry, dog bed, etc. In order to use this item for baby, the carrying handles must be removed.

Moses Basket Handle Removal

The Moses basket handles are tied on to the basket with rope that can be easily cut without damage to the basket. Please follow the images below to safely remove the handles, converting the basket to meet current Federal regulations.

REMINDER: Moses Baskets are for use only with infants ages 0-3 months, or up to 15 lbs. Do not use this item with older babies or children.
